Instructions

This logbook is for you to provide a history of your industrial training and to act as a daily and/or weekly record by the work on which you are engaged.

Student's responsibilities for keeping logbook up-to-date

Once you start your industrial training, you should consistently consult with your supervisor at the organization or supervisor-in-charge.

It is your responsibility to make the main entries of the logbook and keep it up to date. Entries must be regularly (weekly) initialled by your Supervisor. You must ensure that:

1. It is available at your place of work during your industrial training.
2. All entries, except sketches, are made in ink, either handwritten or typed.
3. Entries are made within a week of the work to which they refer.
4. The logbook is handed to your Academic Supervisor upon his/her visit and submitted later be handed to the Coordinator of Industrial Training when you return to UiTM for grading.
5. The logbook contributes 10% towards your final assessment.

Recording :-
The log book should contain the following information.
1. A neat concise description of each of your training location and the work on which you are engaged.

2. Relevant sketches, data, flowcharts and diagrams.

3.   References to textbooks, standards and other technical information related to the work being under taken.

4.   Constructive comments on the work being undertaken and your considered opinion as to its value as training.

5.   The logbook is to be written in ENGLISH.
